

High Quality.
High Performance.
Naturally.

Our goal at Natural Sponges Inc. is to provide you with superior service and natural sponges that exceed your expectations. Each shipment of sea sponges is carefully examined and, if the product is no good, we will not send it to you. We have been in business for over 30 years, and we have built a very loyal customer base of that duration and our goal here is to make our customers happy and satisfied.

Our sizing and quality is always reliable. Our principals are constantly traveling to remote locations throughout the world to ensure that only select and properly sized sponges reach our warehouse. To ensure that our customers receive the best product, we treat our sponges in a unique solution formulated in-house to remove stones and sediments and preserve the natural strength and durability of each sponge.

Natural Sea Sponges can be used for a variety of different applications such as make-up applications, to gently cleanse baby's delicate skin, in the bath or in the shower, to wash your car, to wash your windows or the walls, for sponge painting and faux finishing or just simply pick one with character, and enjoy it as an ornament.

Natural Sponges Inc. is among the largest producers of natural sea sponges in Canada. We import our sponges directly from our own network of harvesters throughout the world. We produce almost all the natural sea sponges used in Canada by the paint and hardware trade, as well as the bath and cosmetic industry, under our own and many private brands.
